She was accompanied by her son, Normand, who has joined the navy and has now left for Akla-vik for training, and her young daughter, Brenda.

On Sunday, June 27, Mr. Pare's other sons, Lucien, Ernest and David and a few friends assembled at the home of Edmond Pare, where Mr. Pare is living and gave a party in honor of Mr. Pare's 87th birthday. Mrs. Armour will be leaving shortly and will stop at Legal to visit another brother.

Hayward's May Open New Store Aug. 5th

Jake Kline, Lac la Biche manager of Hayward's Lumber Company, says that work is proceeding well on the new hardware store and lumber yard. Being built now on the site of the old store which was destroyed by fire three years ago, the new structure should be ready for official opening about August 5.

97 Per Cent Back Taxes Collected

The Town of Lac la Biche found it necessary to offer four town lots for sale for non-payment of taxes. One lot, on the tax sale, was disposed of for \$450.00.

Tax collections are thereby reported in good shape with only 3% of tax arrears still uncollected.

They Did Catch Some Fish

Three well-known Lac la Biche businessmen got back from Owl River by boat Tuesday of last week after spending a night adrift in an open boat. The chilly night air and swarms of mosquitoes didn't comfort the fishermen whose hired boat broke a v-belt making the motor inoperative.

The town was very much concerned for the safety of the trio and a Dept. of Fisheries boat went out early in the morning to locate them.

The pickerel have been running pretty good at Owl River and the men did bring home a few.

LAC LA BICHE—Drs. Wm. Cadzow and A. Brinsmead recently purchased modern X-ray equipment. They have had the back room of their office building partitioned to make an X-ray room. Later the doctors plan on having a "dark room" to develop the X-rays taken. This modern equipment should be ready to be used some time this month.

Forest fires destroyed nearly a third more timber in Canada in 1952 than in 1951. The toll—289,656,000 cubic feet.

A record breaking crowd attended the dance in the evening in the Memorial Hall, sponsored by the Canadian Legion.

ASSESSMENT INCREASED BUT TOWN MILL RATE REMAINS THE SAME

By T. W. PUE

Lac la Biche enjoys this year a \$97,000.00 increased assessment, and in spite of higher expenses there is no increase in the mill rate.

Mayor Chas. Lebas stated that the total assessment is approximately \$600,000.00 this year.

One of the big jobs that is now being done is the grading and gra-

THE LONG-AWAITED-FOR Alberta sun, after long spells of wet and cold spring weather, finally made its appearance. It gave Edmonton and district gardeners the opportunity to get out and enjoy the pleasure of working in their flower gardens.

Warm, Summer Weather Improves Crop Prospects In This District

Warmer weather in the past week has greatly helped crop growth in the Prairies, the bureau of statistics reports.

However, DBS added, excessive moisture, with flooding in some

areas has reduced seeding and damaged crops in low-lying areas of Manitoba, northwestern Saskatchewan and parts of Alberta.

Some seeding of barley and green feed is still being carried on in late areas of all three prairie provinces. Crops generally are late and weedy and will have to face more than usual hazards from rust and early frosts.

Pasture and hay crops are generally good.

In Alberta crops are making excellent progress in the Manyberries' district in southeastern Alberta, with early wheat averaging 10 inches and coarse grains six inches in height. South of Calgary all crops are late.

No crop damage is evident at Hanna in the east-central part of the province. Crops are good but 10 days late in the Sedgewick area of central Alberta, but at Vermilion, to the east, they are three weeks late.

West of Edmonton field work is generally 30 days late. Evansburg reports wheat acreage down 90 per cent from last year. Wheat is up six to 10 inches in the Peace River district and summerfallow acreage is reported 20 per cent above last year's.

In the area north of Edmonton to Colinton and west to the Rockies only about 45 per cent of the intended acreage has been seeded.

New Hospital Wing To Open Next Year

The new 56 bed extension to the Lac la Biche Hospital will be ready for use in the spring of 1955, according to present estimates. For some time wet, rainy weather retarded construction but with good summer weather now in style, work is going ahead as much as six days a week.

The new addition is being built on the site of the Sisters' garden, which like the old building overlooks the lake. It is considered by many to be the most scenic location for any rural Alberta hospital.

H. E. Macdonald, MLA, president of the Alberta Safety Council, reports forty-four groups in cities, towns, villages and municipal districts actively campaigning for improved motor manners.

Mr. Macdonald credited Premier Manning's Highway Safety Conference of May 10 with giving the safety movement a tremendous lift. He said that the desire of the public to reduce traffic accidents is now being backed by action. "Public opinion," he said, "is turning against those drivers who disregard the rights of others," and cited the seven points of the courtesy code as a basic guide to defensive driving.

"DON'T BE A WORRY WART.
GET A STORAGE TANK AND
BE A HAPPY HARVESTER."

A worry wart is a fellow who's wondering if he'll have his supply of tractor fuel on hand when the rush of harvesting begins.

A happy harvester is a fellow who has a fuel storage tank and has it filled with the right tractor fuel. He's ready to start, fast, whenever his crops are right.

More than that—he's cutting down the fire hazard by storing fuel in a properly located tank. He's making sure that his tractor gets good, clean fuel... the kind that won't clog up in the carburetor.

So be a happy harvester. Get a storage tank and let us know as soon as you can what you'll be needing. We'll be out to see you the first time around.

Edmonton Priest Killed; Hon. Lucien Maynard Escapes Death "By Miracle"

COCHRANE, Alta. — Hon. Lucien Maynard, former M.L.A. for Lac la Biche, present M.L.A. for Morinville, and Attorney General for Alberta, is recovering in hospital from injuries sustained in a plane crash near here.

A friendly flight in a two-seater aircraft Sunday turned, in a matter of seconds, into a funeral pyre for a Roman Catholic priest—and resulted in Mr. Maynard escaping death by a miracle.

Father Vincent Prosser, 29-year-old professor from St. Anthony's College, Edmonton, was instantly killed within 300 yards of Mount St. Francis retreat here, 20 miles northwest of Calgary, and Attorney-General Maynard was badly injured when the airplane in which they were flying, piloted by Mr. Maynard, failed to gain altitude after a take-off, plunged into some high tension wires, and plummeted to the ground.

Thrown Clear

The attorney-general was thrown clear as the plane crashed and landed in a field 40 yards away. The aircraft immediately burst into flames, trapping Father Vincent.

Two priests from the retreat who witnessed the crash, Father Ralph and Father Edwin, grabbed fire extinguishers and hurried to the scene. Ambulances arrived at the scene, when he was rushed to Calgary's Holy Cross Hospital.

The RCMP investigated the accident but could give no information on its cause.

At the time of the crash, approximately 34 women visitors from Lethbridge were taking the retreat.

Father Alphonse, delegate provincial of the Franciscan Fathers, said he was looking through his window when the plane took off.

Engine Sputtering

"It only climbed a little way and then I heard the engine sputtering and coughing, he said. I looked closer and saw that the

HON. LUCIEN MAYNARD

pilot was in trouble, the plane wobbled in the air a few seconds—and the next thing we knew was the crash. It was horrible."

A grim touch was added to the tragedy with the fact that the plane crashed within 50 yards of the Roman Catholic cemetery here.

Late hospital reports described the attorney-general's condition as good, he was suffering from frac-

Colinton

Rev. G. B. East has answered a call to Terrace, B.C., and left a week ago for his new post. The vacancy at Athabasca has been filled by Rev. T. E. Thomas from Edmonton. Mr. Thomas is married with one boy. He is expected to take up residence in Athabasca about August 1, at which time notice of the Induction Service will be announced.

Mrs. Staniford has gone to Whitecourt to visit her daughter, Mrs. Walters.

Mr. and Mrs. McIntyre are enjoying a well-earned rest at Baptiste Lake.

The Anglican W.A. held its monthly June meeting at the home of Mrs. Hathaway. The ladies decided to hold a rummage sale and home bake sale in the latter part of July. It was decided that, during the summer months, the W.A. should meet at the Parish Hall. The next meeting will be on July 20.

Mrs. H. Wiltse recently had a visit from her sister, who lives in Portland, Oregon. A family reunion for over 40 members of the family was held at the Wiltse cabin at Baptiste Lake.

Mrs. Nellie Gyte was presented with a gift from the Meanook and Colinton pupils of Mrs. Appleby as a token of appreciation for the use of her piano at the recital.

tured facial bones, burns to the hands and minor cuts and abrasions.

Building Permits Hit New High Mark

EDMONTON (BUP)—A new high for monthly building permits was recorded when Edmonton's building department issued \$305,000 worth of construction permits.

The permits are for single-family dwelling projects.

The department has issued more than one thousand permits since June 1st. This makes it the first time the number of dwelling permits issued during a one-month period has passed the one thousand mark.

In the first six months of 1953 Edmonton issued construction permits for a total value of about \$27,500,000. This year, however, the city has so far issued permits totalling close to \$32,000,000.

Her accessories was a three-strand pearl necklace and earrings to match a gift from the groom. Her corsage was of red roses and white carnations.

Marie Richards was bridesmaid wearing a yellow floor-length net gown, yellow lace bolero, full-length gloves. Her corsage was of pink and white carnations.

Indicating a double-ring ceremony, Mr. Pettegrew of Vancouver, B.C., offered a toast, after which a lovely buffet supper was served. Following this the bride and groom cut the cake.

Approximately 45 to 50 people were in attendance. Out-of-town guests were: Pete and Mary Sockolawsky and sister-in-law of the

bride from Nestow, Alberta, Jean Lagden of Nestow, Alberta. Later the happy couple left on their honeymoon.

Ontario farm workers are needed for haying and harvesting. The province of Alberta is again co-operating in sending farm workers to Ontario this summer as the number of men we can expect from the east for our harvest depends to a certain extent upon the number of western workers that go east to help them. Reduced fares are offered to the workers and it will cost each worker \$10.00 to go and \$11.50 to return if he fulfills his contract while there. Further information can be obtained at the District Agriculturist's office, where you can also obtain transportation warrants.

MAKE HAY WHILE THE SUN SHINES

Feed supplies for livestock were pretty well diminished this past winter and if another winter like the past one follows this year the situation can be pretty drastic unless there is something done about it now. A good idea is to cut some of the legumes that were formerly left for seed, and put it up for hay. This can be done in such a way so as not to reduce the total seed yield too greatly if it is done properly. If large fields of legumes are made into small fields by cutting the hay the bees can concentrate on a smaller area and thus set much larger seed yields per acre. However, to do this the hay must be cut when it is just coming into bloom, and not left to see what kind of a seed set it has, before cutting it for hay. To get the best yield and quality in your hay fields the hay should be cut

at the following stages:

Alfalfa, 1/10 bloom; Red Clover, full bloom; Sweet Clover, bud stage; Alsike, full bloom; Bromegrass, early to full heading; Timothy, blossom; Reed Canary Grass, before heading; Red Top, fully headed; mixtures, cut when the legume is in the right stage.
